Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

We got my tracfone to use in emergencies and it comes in handy. My mom is a diabetic, with heart problems and is kidney dialysis plus she just had to have both of her legs amputated earlier this year. (They were amputated above the knee).

We are not rich, but this phone is very useful in emergencies. Please do not raise the rates any higher.

Thank you,

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
